## Crisis Zone

### **Boss 1: Tank in the Mall**

- Target these parts of the tank initially:
  - 6 side guns (3 on each side)
  - 1 Gatling gun (on top of the primary gun)
  - 1 primary gun (the big gun on the tank)

- 2 rocket launchers (on either side of the tank)
- Destroy these additional parts that open up later:
  - 2 back rocket launchers (located on the back part of the tank)
  - 2 more Gatling guns (inside the tank, last part to destroy)
- Destroy incoming rockets:
  - Large rockets (from the side launchers) take more than one bullet.
  - Groups of orange rockets (from the back launchers) can be taken out with one bullet, but be quick and careful.

## **Boss 2: Tiger Helicopter**

- Machine gun accuracy: The helicopter's machine gun targets better when it's very close, so be on guard.
- Orange rockets: Be quick and lucky at certain parts when the helicopter is close.
- Dropping bombs: Shoot them to destroy this boss.
- Watch out for additional enemies the helicopter brings in.

## **Boss 3: Two Henchmen**

- One of the henchmen is more deadly, particularly the fast-moving, boomerang/knife-throwing guy.

- They bring in friends, so be cautious.
- Utilize items in the environment for combos.
- Boomerang/knives can be shot at, but don't sacrifice a life just for shooting a projectile.
- Know when to duck, especially against the swinging attacks of the fat henchman.

## **Final Boss**

- Wields a shotgun-esque weapon and throws grenades.
- Good aim, and he'll bring in various enemies, including ninjas and guards.

## **High Score Tips**

### **1. Basic Combos:**

- Shoot as many enemies on the screen simultaneously and reload quickly for continuous combos.

### **2. Headshots:**

- Aim for headshots, as more points are likely awarded, similar to Time Crisis 2.

### **3. Item Combos:**

- Shoot at the scenery for item combos.
- Concentrate on specific objects like barrels or flowerpots, as more items need to be broken for a combo.

Keep Start held down and repeatedly press Up/Left or Up/Right to move the pointer to the other side of the screen one fighter at a time. Point Up between steps, and eventually, the pointer will disappear off the screen, and the character portrait will change to B. Mahler.

## Final Fight

### Hidden Stuff

To gain extra points by obtaining jewels and other high-point items from breakable objects like barrels and dustbins, execute the jump + down attack move (Cody - headbutt, Guy - Elbow). When performing the move, rapidly move the controller left to right. This increases the chances of jewels appearing instead of other items.

### Chewing Gum

During the fight with Eddie B. (Cop), he will spit out a wad of gum. Picking it up will restore about half of your life.

### Last Boss - Cody's Ability

Cody can punch away the bolts fired by the last boss. No other character can perform this action.

### Off the Wall Attack

Apart from the normal off-the-wall flying kick, you can change it into a flying elbow drop by doing down + attack.

### Hidden Gems

On the way to the last boss, in a stage with pillars, there

are gems located at the bottom of each pillar. Make sure to collect them.

### Super Combo

This super combo can be easily executed with Cody or Guy, but it's a bit tougher with Haggar. Initiate a punching combo (press attack, attack, attack for Cody or Guy) or (attack, attack for Haggar) and hold the d-pad away from your enemy. Before the final ending combo blow, you will throw the enemy, dealing massive damage. You can also start this combo with a jumping knee (jump and hold down, press attack) to deal even more damage. (This will not work for Haggar).

### Unlock Black ball:

- Hold 'Start' for about 4 seconds and then release it, hold 'Start' again for another 4 seconds during a match,

and when you now release it, the screen will flash, and the ball will turn black.

## Mortal Kombat

**Fight Reptile:** When on 'The Pit Stage,' shadows may fly across the moon, indicating the chance to fight Reptile. To initiate the battle, follow these steps: Throughout the match, avoid using the Block function. Achieve a Double Flawless victory and execute your character's Fatality to defeat your opponent. Note that in Version 3.0, fighting Reptile with Sonya or Scorpion is impossible due to the Block requirement for their Fatalities. In Version 4.0, using Block is allowed, but solely for the Fatality. Once these conditions are met, Reptile will appear at the bottom of 'The Pit Stage.'

**Non-Lethal Fatality:** This technique is exclusive to Liu Kang. During the Fatality opportunity, position yourself far from the opponent, execute the motion, and, if done correctly, Liu will cartwheel without the uppercut. The opponent will stand wavery, and although the fight officially ends, the game registers the Fatality, earning you the bonus. After this trick, you can also throw fireballs for extra points.

**Secret EJB Menu:** After the game boots up during the attract mode, quickly press the following sequence of buttons: P1 Block (5 times), P2 Block (10 times), P1 Block (2 times), P2 Block (1 time), P1 Block (2 times), P2 Block (3 times), P1 Block (4 times). If successful, the secret EJB Menu will appear.

## Mortal Kombat 2

**Sweep and Uppercut Combo:** Execute an uppercut just as your opponent is about to fully recover from a sweep. This timing tricks the game into registering your opponent as already standing.

### **Mastering Liu Kang's Techniques:**

- To unleash a standing fireball: Input forward 2 followed by a high punch.
- Execute a bicycle kick: Hold low kick for 3 seconds.
- Launch a low fireball: Use forward 2, then press x.
- For an airborne fireball: Jump forward 2 and high punch.
- Perform the speedy high kick: Press forward 2 and high kick.

## Mr. Do!

**255 Lives Glitch:** In Level 1, when an apple appears in the first 2 rows, keep it in place by building a tunnel from the bottom of the screen to the location directly below it with a thin layer of dirt. Kill all the enemies except one and then intentionally lose your lives until you only have one remaining. Position yourself under the apple and dig the dirt under it so it will fall on Mr. Do when you shoot the enemy. Wait for the final enemy to approach and kill it before the apple hits Mr. Do. The game will glitch if you have done it correctly, and the life counter will increase to 255 (don't earn a Bonus life as it will set the counter to 0). This glitch only works with the Taito version of the game.

### **Ghost Shield Alert!**

It's quite simple—all you need are specific power-ups: grab the speed boost and the large dot (which isn't technically a power-up but grants temporary invincibility for 30 seconds, allowing you to eliminate ghosts without the risk of getting killed). Enjoy the advantage!

### **Unlock Hidden Warp**

In Round 2, locate the movable tree stump; once found, you'll be warped to Trip 3 Round 9, earning an additional 80,000 points. This feature is exclusive to the Arcade and Atari Lynx versions.

## Pac-Man 25th Anniversary Edition

### **Galaga: Double Ships**

Wait until one of the top ships (the green ones that take two shots to kill) comes down and fires off a tractor beam (the beam that can capture your ship). Let it capture your ship. Now, wait until it swoops down again with your ship behind it. Simply kill the head ship (the green one), and it will lose your ship. Your ship will then lock on to the side of your current ship, giving you two ships to play with at the same time! Now, be careful. Not only will both ships be firing at you after your ship gets captured, but if you accidentally shoot your captured ship, you'll destroy it. Also note, this will cost you one life, but will definitely make the Challenging Stages, and perhaps the game itself, a little easier to play. Note: This works in all non-bootleg/hack versions of Galaga, as well as most of the sequels and Arranged Mode in Namco Classic Collection Vol. 1.

### **Galaga: Stop Enemies from Firing**

On most revisions of Galaga, there's a trick that stops enemies from firing at your ship. In Stage one, kill all aliens except the two bees in the bottom-left corner. Allow the bees to dive down and shoot at you, while dodging their shots. After around fifteen minutes or so, the bees will continue to drop down, but they won't fire. Let them drop down another five or six times, then kill them. After all this, enemies will not shoot at you for the rest of the game.

### **Speedup Cheat**

You can speed up Pac-Man and Ms. Pacman or enable fast shooting in Galaga by entering this code after inserting coins.

Once you enter the code, you should hear a sound indicating that the code worked. Now just select a game and enjoy! Credit goes to GinsuVictim for posting this on the cheat page for Namco 20 Year Reunion: Ms. Pac-Man/Galaga - Class of 1981.

Left, Right, Left, Right, Up, Up, Up, Fire - Enable speedup.

## Q

Are there any arcade games that start with Q? I seriously couldn't find one. Did I seriously put a commentary in this section, maybe... it's my book. Can't I have a bit of fun with it? There aren't really any new books like this in production, and between inflation and expensive new titles I figured emulation devices might see a spike! That's why I made this. Granted, the internet made it so it is easier to dig for the right codes to help you on your games, but these guides were a serious dedication to the craft! Being that one can get an emulation device preloaded with a bunch of games, having a collection of cheats on standby that aren't preloaded may be handy! At least that's what I convinced myself to calm the self-nagging voices...

Do you hear them too?

Do they tell you things?

No?

God fucking damn it!

I hope you enjoy the rest of this collection then!

Can we still be friends and you ignore the minor psychosis episode you just witnessed?

### **Vs. Battle City**

Stage Select Insert a credit and, on the next screen, hold A and B on the second controller. Press Select on the first controller within 10 seconds to choose any stage from Stage 01 to Stage 35.

### **Vs. Super Mario Bros.**

Continue After a game over, hold the A Button at the title screen, then press Start to start again from the last played world. Use two controllers if needed to "combine" input: for example, Controller 1 is Up, A, Select, and Controller 2 is Down, B.

Timer Underflow Glitch Execute this glitch in castle levels where you fight Bowser (e.g., World 1-4, 2-4, 3-4, etc.). Defeat

Bowser with Fire Mario or Fire Luigi, then wait for most of the timer. Time your jump to land on the axe as the timer goes from 002 to 001. If done correctly, the timer bonus will be calculated as if you had 999 seconds, providing a 49,950 point boost. Note that this glitch, if executed on levels using a flagpole, prevents earning the bonus in that level.

Warp to World 5 In World 4-2, near the end of the underground segment, pass over a pipe with a Piranha Plant. Use Big/Fire Mario/Luigi to break the blocks above it, go right, and along the path to a warp zone leading to World 5.

Warp to World 6 In World 4-2, head right in the underground segment. Pass seven ? Blocks, and then reveal blocks by bouncing around, hit already-revealed bricks to expose a vine. Climb this vine to reach a warp zone leading to World 6.

Warp to Worlds 2, 3, or 4 In World 1-2, find elevators near the end of the underground segment. Use them to ride onto the blocks making up the roof, go right, and past the warp pipe. This brings you to a warp zone for Worlds 2, 3, or 4.

## Vs. Tetris
